4/1092 001 001	CAVID 199 Other (describe on back)						
7. Indicate the elevation datum system used on the FIRM for Base Flood Elevations (BFE): MNGVD '29 Other (describe on back) 8. For Zones A or V, where no BFE is provided on the FIRM, and the community has established a BFE for this building site, indicate 8. For Zones A or V, where no BFE is provided on the FIRM, and the community has established a BFE for this building site, indicate							
the community's BFE: LLLLL test NGVD (or other train datasets)							
SECTION C BUILDING ELEVATION INFORMATION							
1. Using the Elevation Certificate Instructions, indicate the diagram number from the diagrams for describes the subject building's reference level 2(a). FIRM Zones A1-A30, AE, AH, and A (with BFE). The top of the reference level floor from the of (b). FIRM Zones V1-V30, VE, and V (with BFE). The bottom of the lowest horizontal structural the selected diagram, is at an elevation of Level NGVD (or other FIRM datumes level from the selected diagram, is at an elevation of Level from the selected diagram is (c). FIRM Zone A (without BFE). The floor used as the reference level from the selected diagram is (d). FIRM Zone AO. The floor used as the reference level from the selected diagram is (d). FIRM Zone AO. The floor used as the reference level from the selected diagram is (d). FIRM Zone AO. The floor used as the reference level from the selected diagram is (e). FIRM Zone AO. The floor used as the reference level from the selected diagram is (d). FIRM Zone AO. The floor used as the reference level from the selected diagram is (d). FIRM Zone AO. The floor used as the reference level from the selected diagram is (e). FIRM Zone AO. The floor used as the reference level from the selected diagram is (d). FIRM Zone AO. The floor used as the reference level from the selected diagram is (e). FIRM Zone AO. The floor used as the reference level from the selected diagram is (d). FIRM Zone AO. The floor used as the reference level from the selected diagram is (e). FIRM Zone AO. The floor used as the reference level from the selected diagram is (e). FIRM Zone AO. The floor used as the reference level from the selected diagram is (e). FIRM Zone AO. The floor used as the reference level from the selected diagram is (e). FIRM Zone AO. The floor used as the reference level from the selected from the selected diagram is (e). FIRM Zone AO. The floor used as the referenc	member of the reference level from m-see Section B, flem 7). am is feet above or or or or						
RECTION D. COMMUNITY INFORMATION							
1. If the community official responsible for verifying building elevations specifies that the reference is not the "lowest floor" as defined in the community's floodplain management ordinance, the floor" as defined by the ordinance is:	noe level indicated in Section C, Item 1 e elevation of the building's "lowest ee Section B, Item 7). SEE REVERSE SIDE FOR CONTINUATION						

SECTION E CENTIFICATION IF YALLS -S

PETITAL PRINCIPACION NANAGEMENT MORES

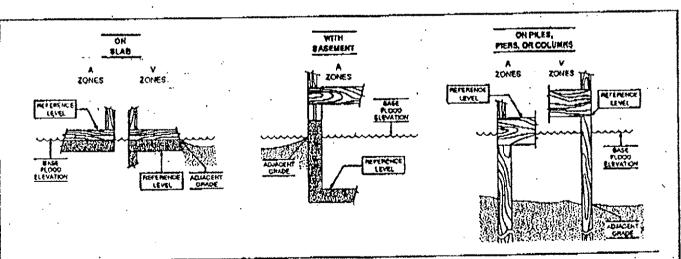

This certification is to be signed by a land surveyor, engineer, or architect who is authorized by state or local law to certify elevation information when the elevation information for Zones A1+A30, AE, AH, A (with BFE), V1-V30, VE, and V (with BFE) is required.

Community officials who are authorized by local law or ordinance to provide floodplain management information, may also sign the certification. In the case of Zones AO and A (without a FEMA or community issued BFE), a building official, a property owner, or an authorized to the community issued BFE), a building official, a property owner, or an authorized to the community issued BFE. owner's representative may also sign the certification.

Reference level diagrams 6, 7 and 8 - Distinguishing Features-If the certifier is unable to certify to breakaway/non-breakaway well, enclosure size, location of servicing equipment, area use, wall openings, or unfinished area Feature(s), then list the Feature(s) not included in the certification under Comments below. The diagram number, Section C, Item 1, must still be entered.

I certify that the information in Sections B and C on this certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.

The diagrams above illustrate the points at which the elevations should be measured in A Zones and V Zones.

Elevations for all A Zones should be measured at the top of the reference level floor.

Elevations for all V Zones should be measured at the bottom of the lowest horizontal structural member.
